

MaX UC Mobile

QUICK START GUIDE

You can use your Nextera phone service to make or receive calls from your desk phone, your PC or MAC, and your mobile devices.

For this to work on your mobile or tablet, you need to install the MaX UC Mobile app. This guide helps you to do that.

ENSURE YOUR DEVICE IS COMPATIBLE

MaX UC Mobile works on:

- Android phones and tablets using version 6.0 or later.
- iOS devices running iOS 11.0 or later.

Video calling only works on devices that have a front-facing camera.

You need your MyNextera phone number and password to start using MaX UC Mobile.

If you don't have this information, call us on 877-639-8372.

DOWNLOAD AND INSTALL THE APP

Tap Open on the app and select Nextera Communications as your Carrier. Then if not already present, enter your MyNextera Phone Number and Password. Tap Log in. If you are having trouble logging in tap the eye symbol to show your password and check that there are no errors.

If you want to have the ability to switch calls to your own cellular network (for example, if you move to an area with poor Wi-Fi connection during a call made on MaX UC Mobile) enter your own mobile phone number and tap Continue.

EXPLORING MAX UC MOBILE

MaX UC Mobile is like having your desk phone on your mobile. You can make and receive calls, hold calls, transfer calls, and make three-way calls. You can even push and pull calls from your phone to other twinned devices, mid-call.

You can also use MaX UC Mobile to send messages to other people in your corporate directory who are using MaX UC (on any device).

MaX UC Mobile uses the Wi-Fi, broadband, or mobile data services available, so you can make and receive calls without using your mobile minutes.

You can access the MaX UC Mobile features using the Contacts, Phone, Chat and Meetings tabs at the bottom of the screen.

CONTACTS TAB

TRANSFER THE CALL

Tap Add/Transfer to send the call to another number. You can select a contact or type in a number to transfer the call to. You can also transfer the call to another one of your MaX UC client devices, without hanging up!

SWITCH THE CALL TO ANOTHER DEVICE

If the call has poor audio due to an unreliable Wi-Fi or mobile data service connection, tap More then Switch and select This device (cellular) to move the call to your regular cell phone. Remember the call will now use your mobile minutes.

Alternatively, you can push the call to another of your MaX UC client devices, such as your desktop or your iPad. Tap More and then Switch and select Another device to push the call to whichever device is most convenient.

CALLBACK

Callback triggers a call back from the MaX UC service to any phone number you have access to. This can be useful when your network connection is poor or while roaming.

To establish Callback, click on the avatar in the top-right which is Profile & Settings. Within Calls, tap Calling Mode then Advanced options and choose Request callback. Within Callback options enter Callback numbers and whether to default to a specific callback number or to Always Ask.

Once the Callback option is chosen, when placing a call, you must choose the Callback number you wish to make the call from (or the default depending upon your choice from above). The MaX UC Service will trigger a call back to your chosen number. When you answer the call, you will be connected to the person you are trying to contact. The Caller ID will still identify your MaX UC telephone number.

CALL PULL

You can pull calls from your other devices onto your mobile. If a call exists that can be pulled, MaX UC Mobile displays a Call Available to Pull option. Tap this option and follow the on-screen prompts to pull the call onto your mobile.

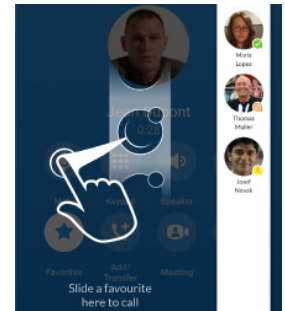

VIDEO CALLING

If the person you are talking to is also using MaX UC Mobile and your phone has a front-facing camera, you can add video to your call. Tap More then Video to send video. The other person receives a prompt inviting them to switch on their video. Tap on the Video icon at any time to turn off your video feed.

FAVORITES

Tap the Star icon on a contact's directory entry to add the contact to Favorites. Favorite contacts appear in a banner at the top of the Contacts tab.

During a call, click on the Favorites icon to view your favourite contacts. Drag and drop a contact into the call window to setup a new call. When the contact answers, you can merge them into the initial call to create a 3-way call.

CALL NOTIFICATION

On Android devices, when you minimize the call window, the notification banner at the top of the screen shows the active call.

On iOS devices, the call notification banner displays at the bottom of the Phone tab.

PROFILE & SETTINGS

Click on your avatar in the top-right to access Call, Chat, Contact, and Messaging settings, and additional setup options. You can also configure your profile, send error reports and access Call Manager in the Profile & Settings window.

CALL MANAGER

You can tell MaX UC Mobile how to handle your incoming calls. Tap the Call Manager option in the Profile & Settings window and select Available, Do not disturb, or Forward all calls.

If you select Do Not Disturb, callers hear a recorded voice announcement saying that you are unavailable and are then connected to your voicemail. None of your devices will ring until you turn off Do Not Disturb, so be sure to use it carefully!

Note that when you change your Call Manager settings, the change applies on all of your MaX UC Client devices.
